

converting input data representing the property, including at least one security, into input digital electrical signals representing the input data;

providing a digital electrical computer system controlled by a processor electrically connected to receive said input digital electrical signals and electrically connected to an output means;

controlling the digital electrical computer processor to manipulate electrical signals to compute the system-determined purchase price for the property in consummating a sale; and  
generating the financial analysis output including the offering document at said output means.

58. (Thrice Amended)      A method for making financial analysis output including an offering document having a system-determined purchase price for property in consummating a sale, the financial analysis output being made by steps including:

converting input data representing the property, wherein the property includes a fixed-income asset, into input digital electrical signals representing the input data;

providing a digital electrical computer system controlled by a processor electrically connected to receive said input digital electrical signals and electrically connected to an output means;

controlling the digital electrical computer processor to manipulate electrical signals to compute the system-determined purchase price for the property in consummating a sale; and  
generating the financial analysis output including the offering document at said output means.

## **II.      REMARKS**

It is believed that no new matter has been added and that no prosecution issue is raised by the amendment, such that the Amendment places the application in better condition for appeal or
